Description

Kawasaki STX-160LX 160HP Jet Sound

- Ski Only Package

ENTRY POWERFUL SPORTS This new series was developed as a successor to the JET SKI STX-160 LX personal watercraft. It inherits the well-known powerful engine and excellent straight-running handling of the STX hull, while at the same time adopting a new design that combines a comfortable riding position with ease of handling. For first-time PWC owners, this model compares favorably to competitor models as it has been reborn with an engine that boasts even higher output and excellent manoeuvrability combined with a new deck design. The new model can be adapted for a variety of situations (family outings, recreation, cruising/touring, and so on). The newly added functions are mainly designed to make touring easier, more comfortable, and more enjoyable.
